JOB OPPORTUNITY!

Email CV to: careers@tigerit.com

Submission deadline: May 24, 2023

PLEASE NOTE: Applicants must email their CV with the subject title: "Senior Software Engineer (Android)". Applicant must submit his/her CV with a cover letter justifying why s/he is suitable for this position.

Job Title: Senior Software Engineer (Android)

Tiger IT is looking for talented, self-driven, and motivated individuals responsible for developing innovative new product features designed to enable customers to build ever more complex systems faster and easier. He or she will be involved in all aspects of product development; design, prototyping, implementation, testing, and productization.

Job Responsibilities

• Design and build advanced applications for the Android platform

• Closely work with other app development and technical teams

• Take ownership of your work by meeting deadlines, anticipating delays, and raising issues appropriately

• Lead technical architecture, coding standards, and other team policies

• Explore and advocate for Software Engineering best practices

• Self-aware of limitations, yet curious to learn new solutions and receptive to constructive feedback from teammates

• Thoughtful about communication with others, celebrating differences and unique contributions

• Participating in the recruitment process, providing input for performance appraisals

Educational Requirements

• Bachelor of Science (BSc) or Master of Science (MSc) in Computer Science from a reputed university

TigerIT

RE: Software Engineer   Block-K, House#21 Rd No.28

 Dhaka 1213

Dear Hiring Manager

As a driven, industrious, and emerging professional, I firmly believe that my contributions to the Software Engineer role will create a positive impact on TigerIT's goals. I graduated from Jatiya Kabi Kazi Nazrul Islam University (JKKNIU) with a BSc engineering in cse and I believe my background has prepared me to bring continued success to your organization.

I am an aspiring leader and offer key strengths in problem-solving, communication and time-management. With a strong commitment to progress and goal-achievement, I am well-versed at streamlining processes, driving efficiency and encouraging team performance. With an in-depth understanding of the requirements set forth for this role, I see that you are seeking a candidate with system development, network development and programming skills. I am eager to utilize my entrepreneurial-minded approach to support the creation of resourceful solutions with TigerIT. With a passion for the organization's mission and values, I believe contributing to your team would be exceptionally rewarding.

Thank you for your time and consideration of my qualifications regarding the Software Engineer opportunity. I will reach out to you within the upcoming week to inquire about the hiring process and next steps. If you would like additional information about my background and skills, please feel free to contact me.

Sincerely,

MD ARMAN HOSSEN

MD. ARMAN HOSSEN

SOFTWARE ENGINEER

ABOUT ME
